BRISTOL
waste

Do you present and store your waste on the public highway? **If yes...** are you aware of the changes to commercial waste collections this year?

We want to make this change easy for you. Our services include:

- full coverage for all waste streams, **7 days a week**
- our trucks meet the new **CAZ targets** for June 2022
- the right container for your waste; high density seagull sacks, 8L and 23L food caddies, 44L recycling boxes as well as other commercial containers from 80L to 1100L
- a bespoke **waste review** for your business
- **daily collections** when required, ideal for businesses with minimal storage space for bins.

Bristol Waste will always look to **price match** the current service on offer where possible.
